

# TRM 731i

## Experience™ Series

# Interval Treadmill

### Product Highlights

The TRM 731i Interval Treadmill combines essential reliability and performance with an intuitive console at a value just right for you. This treadmill offers operators the ability to conduct small group interval training on treadmills, while providing a comfortable and effective workout for your exercisers. Whether instructor led or on their own, the exerciser can dynamically adapt their interval workout, making it fun and engaging.

### Product Features

#### 1. P30i Console

The simple, easy-to-use P30i Interval Console supports a get-on-and-go experience that gives operators the ability to offer group interval training on the 700 Line treadmill. At any time during the workout, the exerciser can change the interval intensity using one-touch speed and incline keys. For added convenience, there are three interval settings that allow the exerciser to quickly program and save low, medium, and high intensity interval levels. Once saved, the exerciser simply presses one of the three interval keys to transition to the saved speed and incline level.

#### 2. Motor Drive System

The 4 HP high-efficiency AC-motor drive (8 HP peak) improves performance, efficiency, and reliability through improved internal cooling, a wider operating range, and unique input current averaging to more precisely identify when a running belt requires replacement.

#### 3. Integrated Footplant Technology™

Integrated Footplant Technology recognizes the exerciser's natural foot speeds and matches every stride for an ultra-smooth feel that enhances the workout experience.

#### 4. Ground Effects® Impact Control System

Our patented system combines ideal cushioning, support, and stability for exercisers. Precor treadmill decks are designed to provide more absorption in the front, where the exerciser's feet hit the belt, and added rigidity at the back for a firm push-off.

#### 5. Active Status Light

To increase uptime, an external status light lets you and your staff know, at a glance, the operating condition of your treadmill and when to perform life-extending maintenance.

### Specifications

**Dimensions (L x W x H):** 83 x 35 x 62 in / 211 x 89 x 157.5 cm

**Equipment Weight:** 405 lb / 184 kg

**Step-Up Height:** 9.5 in / 24 cm

**Handrail Length:** 18 in / 46 cm

**Running Surface:** 60 x 22 in / 153 x 56 cm

**Speed Range:** 0.5 - 12 mph / 0.8 - 19.3 km/h

**Elevation Range:** 0% to 15% incline in 0.5% increments

**Motor Drive:** 4 HP high-efficiency AC-motor (8 HP peak)

**Interval Settings:** 3

**Power:** 120 volt, 20 amp individual branch circuit

**C-SAFE Enabled:** Yes

**Language:** English

**Accessories:** Optional - Cable Management

**Warranty:** Visit [www.precor.com](http://www.precor.com) for warranty terms.
